

Calcium Nitrate Crystals CAS 10124-37-5

Classification:Nitrate

Grade Standard:Industrial Grade

Purity:99%

Appearance:White Powder

Application:INDUSTRIAL

Model Number:Calcium Nitrate

Type:Calcium Nitrate

CAS No.:10124-37-5

Other Names:Soda Niter

MF:CaN2O6

EINECS No.:233-332-1

Place of Origin:China (Mainland)

Ingredient		Industrial Grade
Main Contents	% ≥	98.0
Nitrogen (N)	% ≥	11.0
CaO	% ≥	23.0
Features	Colorless crystal, relative density at 2.504, melting point at 561 °C, easily soluble in water	
Tips	Be suitable for less calcium soil because of high density. P. CN can increase the production and improve the quality of soil.
