Used

Mercaptoacetic acid is an organic acid with the chemical formula C₂H₄O₂S. It is a colorless and transparent liquid with a strong unpleasant odor. It is miscible with water, soluble in ethanol and ether, and in ordinary solvents. It rapidly oxidizes in the air, burns under open fire and high heat, and emits highly toxic hydrogen sulfide gas. It is mainly used as a raw material for blanket finishing agents and cold ironing liquids.

Packaging

The usual one package of Thioglycolic-acid is 200kg/drum. But we could also subpackage it according to our customers' requirements.
